

TOP 10 REASONS TO CHOOSE TURVI

1 YOUR TV CHOICES ANYTIME, ANYWHERE

The future of television is here. With the most extensive line up of sports, movies, premium and live local channels available at a truly affordable price! Never miss your favorite programming again.

2 RISING COST OF CABLE & SATELLITE TV

Did you know that the average spend in 2015 for cable and satellite TV here in the US is about \$128 per month? ...Even worse that number is projected to rise to \$200 per month by 2020! How would you like to pay a fraction of that amount each and every month for the same great programming including your premium channels? Turvi is your solution!

3 PREMIUM CHANNEL BLUES

Love watching that one show but you can only get it on the premium channels and the introductory period just ran out? No worries with Turvi our premium package never expires.

4 NO NEED TO SET THE DVR

Don't worry about setting the DVR ever again. With Turvi we will have all programming accessible through our cloud based service for playback without need for special equipment.

5 NO MORE "END OF THE PROMO" RATE HIKES

Sick of opening up your bill and always wondering what your total will be this month when your promotional period is over? Never worry about that again! With Turvi we will not increase your rate. Our value is in the fact that we offer quality programming at a fraction of the cost continually.

6 NO CONTRACTS

Ever wanted to cancel your current cable or satellite service but couldn't due to being tied into a two year contract with HEFTY penalties for early termination if you did? We were too! With Turvi you are never locked into a contract. If you are not completely satisfied you can cancel without penalty at any time (we would be shocked if you weren't).

7 NO MONTHLY EQUIPMENT CHARGES

Tired of renting a pricey DVR box, cable or satellite receivers? With Turvi, you never have to rent any equipment, thus no hidden fees or extra charges.

8 NO CREDIT CHECKS

Everyone qualifies for service regardless of their credit history.

9 NO MORE WEATHER INTERRUPTION

How many times has your satellite signal dropped while watching the big game all due to a rain cloud over your home? With Turvi you will only need a secure Internet connection and you will always be good to go.

10 WATCH INSTANTLY

Ever signed up for service, wait around for weeks till they can schedule you for installation then have to wait all day till a technician makes it out to you? Those days will be a distant memory with the launch of Turvi. Your service is ready and available immediately after signup!
